Board-Approved Rate Adjustments Effective October 1, 2025

The Englewood Water District ("EWD") wishes to inform all customers of recent action taken by its Board of Supervisors. On August 14, 2025, during a duly noticed Public Hearing, the Board unanimously approved a series of adjustments to EWD's water and wastewater service rates and fees. These changes will become effective on October 1, 2025.

EWD understands that rate adjustments may present challenges for customers and partners and acknowledges the potential impact of these changes. Please be assured that these decisions were made only after careful consideration of EWD's operational needs, infrastructure requirements, and commitment to providing safe, reliable water and wastewater services.

A detailed rate schedule is available below, showing both the current rates and the new rates effective October 1, 2025. Additionally, the Official Rate Study and accompanying Rate Study PowerPoint presentations are available for review on EWD's website.

We appreciate your continued support as EWD invests in the infrastructure and resources needed to provide reliable service to our entire community.
